PROJECTS

SynapseHub | Business Ordering Website
Developed a website prototype allowing customers to view products and submit orders through an online ordering system.

Flow | Personal Finance Tracking Application
Created a mobile application concept for tracking savings, expenses, financial goals, and personal progress.

Life Stack | Delivery & Task Management Application
Developed a productivity application for managing deliveries, schedules, deadlines, and reminders.

3D Asset Creation & Game Development
Created custom 3D assets and environments using Blender, including modeling, texturing, lighting, and rendering. Developed a playable survival game demo with custom UI elements, game systems, and interactive features.

Digital Content Creation & Social Media Growth
Created and managed short-form content across YouTube and Facebook, covering educational, financial/business, motivational, and entertainment topics. Applied trend research, content strategy, audience analysis, and retention-focused editing to grow online platforms organically.

EXPERIENCE

Social Media Manager & Digital Creator
2023 – Present
Built and managed personal platforms, growing audiences to thousands of followers and achieving videos with close to a million views. Managed content planning, editing, publishing strategies, and audience engagement.

Community Manager / Discord Manager
2020 – 2024
Managed community activities, organized events, created engagement strategies, and supported member growth.

Freelance Video Editor
2023 – Present
Produced short-form content for YouTube Shorts and TikTok creators using Premiere Pro, After Effects, and CapCut. Created engaging edits through captions, motion graphics, transitions, effects, and retention-focused techniques.

Independent Computer Hardware Entrepreneur
2021 – Present
Managed a computer parts buy-and-sell business, handling sourcing, inventory, customers, sales, and order fulfillment.

CERTIFICATION

Cisco Networking Academy (NetAcad)
Data Analytics Coursework Completion | 2025
Completed coursework involving data lifecycle concepts, data cleaning techniques, and data visualization using Tableau.

EDUCATION

Bachelor of Science in Computer Engineering
Cebu Technological University
Undergraduate
